

# open house weekend

Welcome to our new Open House Weekend section. As you'll notice there's a number in each listing inside the red triangle. Go to our map on page 21 -- look for the matching number on the map, and find the location of the house.

Because we are the best at pulling together print, web and mobile marketing, each listing has its own unique weblink and QR Code. Type the link into your smart phone or computer and you'll see an electronic tour of the property as well as a more detailed map to the location of the open house. If you prefer, scan the QR Code with your smart phone app and get the same result.
